

LETTER OF RECOMMENDATION

To Whom It May Concern,

I am pleased to recommend Charvi Joshi, who completed her internship as a Data Analyst Intern with EGNITER (IKSHVAKU MEDIA PVT. LTD.) from 1st October 2025 to 1st January 2026.

During her internship, she worked on routine data-related tasks including data preparation, basic analysis, and report generation. She demonstrated a clear understanding of analytical concepts and approached her responsibilities in an organized and methodical manner. Her attention to accuracy and consistency was evident in the work she delivered.

Charvi maintained a responsible and professional attitude throughout the internship. She followed instructions carefully, met assigned timelines, and responded positively to feedback. She showed a willingness to learn, asked relevant questions when required, and adapted well to changing requirements.

She worked effectively with team members and communicated clearly during her assignments. Her conduct was professional at all times, and she proved to be a dependable and disciplined intern.

Based on her performance and work ethic, I believe she has a strong foundation for entry-level roles in analytics and other data-focused domains. I recommend her for future academic and professional opportunities and wish her success in her career ahead.

Please feel free to contact me should you require any further information.

Regards,

Ankit Kushwah
